25X1

- The planned consumption of pig iron and scrap for the Polish smelting industry for November 1952 was as follows:

Production of Martin steel:	248,300 tons
Production of electro-steel:	10,800 tons
Norm of pig iron consumption:	474 kg/1 ton steel (average)
Plan for pig iron consumption:	122,240 tons
Scrap consumption norm:	607 kg/1 ton steel (average)
Planned scrap consumption:	156,740 tons

It was expected to cover scrap requirements locally to the extent of 69,300 tons

Necessary scrap imports 87,440 tons

- Scrap stock on hand 1 November 1952 amounted to 35,000 tons instead of 80,500 tons. Deliveries from abroad in November hardly amounted to 85,000 tons instead of 132,940 tons.

- Comment: The planned scrap consumption for September was 159,800 tons
